Executive summary on 2004 Missouri vehicle stops

- Background
- Statewide Findings
- Analysis by Attorney General Nixon
- Appendix A: Local traffic stops in proportion to state racial composition
- Appendix B: Disparity indexes for 2000-2004 are compared

I. BACKGROUND

Concerns by the citizens of Missouri and the Missouri legislature regarding allegations of racial profiling by law enforcement prompted the passage of state law Section 590.650, RSMo (2000), which was enacted Aug. 28, 2000. Racial profiling has been defined as the inappropriate use of race by law enforcement when making a decision to stop, search or arrest a motorist.

Missouri's state law requires that all peace officers in the state report specific information including a driver's race for each traffic stop made in the state. Law enforcement agencies are required to turn in the data to the Attorney General, and the Attorney General is required to compile the data and report to the Governor no later than June 1 of each year. The law allows the Governor to withhold state funds for any agency which does not comply with the law. State law requires that all information be reported to the Attorney General's Office by March 1.

The summary of statewide racial profiling data has been provided by Scott H. Decker, curator's professor of criminology and criminal justice; Richard Rosenfeld, professor of criminology and criminal justice; and Jeffrey Rojek, doctoral candidate in criminology and criminal justice; all at the University of Missouri-St. Louis.

Table 1. 2004 statewide summary of results

Key Indicators	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Population	4,331,937	3,692,696	444,024	80,094	50,593	17,951	46,579

Stops	1,365,575	1,129,748	187,704	26,967	10,748	1,122	9,286
Searches	106,430	79,448	22,567	3,488	337	109	481
Arrests	74,484	56,521	15,079	2,268	250	77	289
Statewide population %	100%	85.24%	10.25%	1.85%	1.17%	.41%	1.08%
Disparity index	- - -	.97	1.34	1.07	.67	.20	.63
Search rate	7.79%	7.03%	12.02%	12.93%	3.14%	9.71%	5.18%
Contraband hit rate	20.61%	22.43%	15.33%	14.36%	14.84%	13.76%	15.80%
Arrest rate	5.45%	5.00%	8.03%	8.41%	2.33%	6.86%	3.11%

Notes: Population figures are from the 2000 census for persons 16 and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 10.

[back to top]

II. STATEWIDE FINDINGS

The 2004 Annual Report on Missouri Traffic Stops summarizes the data from 603 law enforcement agencies in Missouri for 2004. This represents 83 percent of the 728 law enforcement agencies in the state.

The agencies filing reports recorded a total of 1,365,575 traffic stops, resulting in 106,430 searches and 74,484 arrests. Table 1 breaks out the stops, searches and arrests by race and ethnic group1.

Four summary indicators are included in Table 1 that may be useful in initiating further assessments of racial profiling in traffic stops.[2] The first, termed the "disparity index," relates each group's proportion of total traffic stops to its proportion of the driving-age population 16 and older.

A value of 1 on this index indicates that a group's proportion of traffic stops equals its population proportion: it is neither “under-represented” nor “over-represented” in traffic stops. Values above 1 indicate over-representation, and those below 1 indicate under-representation. For example, the 1,129,748 whites who were stopped accounted for 82.7 percent of all traffic stops in 2004.

According to the 2000 census, [3] whites comprise 85.2 percent of Missouri's driving-age population. The value for whites on the disparity index is, therefore, .827/.852 or .97. Whites were stopped, in other words, at just slightly below the rate we would expect based on their fraction of the population.

The same is not the case for several of the other groups. African-Americans represent 10.3 percent of the population 16 and older but 13.7 percent of all traffic stops, for a value on the disparity index of 1.34.

African-Americans were stopped at a rate 34 percent greater than expected based solely on their proportion of the population 16 and older.

Hispanics were stopped at a rate slightly above their population proportion, and Asians, American Indians and persons of mixed or unknown

race were stopped at a rate below their proportion of the driving-age population.

The values on the disparity index for the groups can be compared directly to one another. For example, the likelihood that an African-American motorist was stopped is 1.38 times that of a white motorist (1.34/.97). In other words, African-Americans were 38 percent more likely than whites to be stopped in 2004.

The disparity index is a gauge of the likelihood drivers of a given race or ethnic group are stopped based on their proportion of the residential population 16 and older, and not of the population of motorists on the state's streets, roads, and highways.

A group's share of the residential population 16 and older may or may not equal its proportion of drivers. Although in most instances the two proportions should be close, that may not always be the case.

The extremely low index values for American Indians, for example, could indicate that they are under-represented among the state's motorists. In addition, motorists from other states are stopped on Missouri's roadways. To the extent that out-of-state drivers do not reflect the race and ethnic composition of Missouri's population, the disparity index will not accurately portray the probability that Missouri residents are stopped.

The second indicator that can be used to assess racial profiling is the "search rate," or the number of searches divided by the number of stops (x 100). (Searches include searches of drivers or property in the vehicle.)

The search rate for all motorists who were stopped is 7.79 percent. Asians were searched at a rate well below the statewide average, and African-Americans, Hispanics and American Indians were searched at rates above the average for all motorists stopped.

The search rate for the groups also can be compared directly with one another. African-Americans were 1.71 times more likely to be searched than whites (12.02/7.03). Hispanics were 1.84 times more likely than whites to be searched (12.93/7.03).

The reasons for conducting a search and the outcome of the search (such as finding contraband) should be considered when making comparisons across groups.

Some searches are conducted with the consent of the driver, or because the officer observed suspected contraband in plain view, had reasonable suspicion that an individual may possess a weapon (Terry search), or other reasons. These searches may or may not result in an arrest.

Other searches are conducted incident to arrest, which means there is no other reason given for the search other than arrest. These searches are almost always performed when there is an outstanding warrant.

The third summary indicator, the "contraband hit rate," reflects the percentage of searches in which contraband is found. Contraband was found in 20.6 percent of all searches conducted. However, there is considerable variation in the contraband hit rate across race and ethnic groups.

The contraband hit rate for whites was 22.4 percent, compared with 15.3 percent for African-Americans and 14.4 percent for Hispanics. This means that on average searches of African-Americans and Hispanics are less likely than searches of whites to produce contraband. This difference is most likely attributable to the higher arrest rates for African-Americans and Hispanics, circumstances that compel a search.

The "arrest rate" is the fourth summary indicator included in Table 1 that may be useful for assessing racial profiling. Just over 5 percent of all traffic stops resulted in an arrest (74,484/1,365,575). The probability of arrest varies across the race and ethnic groups.

Between 8 percent and 9 percent of the stops of African-Americans and Hispanics resulted in arrest, compared with 5 percent of the stops of whites. African-Americans and Hispanics are stopped and searched more often than whites, but they also are arrested more often.

This year's report compares (PDF file 19,722K) the 2004 disparity index to the disparity indexes for 2000-2003.[4]

For each agency, the disparity index for each race-ethnic group is presented for 2000-2003. For the state as a whole, the key indicators show very small changes between 2003 and 2004. The disparity index is highly stable across the two years. The search rate (percentage of stops in which a search is conducted) for American Indians drops to 9.7 percent in 2004 from just below 12 percent in 2002.

The arrest rate for American Indians also falls from 9.5 percent in 2003 to 6.9 percent in 2004. The contraband hit rate (percentage of searches in which contraband is found) for persons of other or mixed race fell from 22.7 percent to 15.8 percent.

A reasoned determination of the existence of racial profiling in a community requires a comprehensive evaluation of the full range of information compiled in the agency reports. This brief summary of selected indicators for the state as a whole is intended to stimulate those local evaluations and dialogue.

III. ANALYSIS BY ATTORNEY GENERAL JAY NIXON

This report is the fifth annual analysis of traffic stops in Missouri issued by the Attorney General's Office under Section 590.650 RSMo (2000). All previous reports, which date back to 2000, can be linked from this page to compare reports from year to year.

Viewing the statewide statistics for 2004 as a whole shows there was little change from previous years. The analysis of data from 2004 continues to show some degree of disparity in stop and search rates, particularly in the rates at which African-American drivers are stopped and at which African-American and Hispanic drivers who are stopped are then searched (although the rates in all three of these categories declined somewhat from 2003 to 2004). The continued disparity in stops and searches of these groups of drivers should be cause for ongoing review by law enforcement.

It is vital to keep in mind that statistical disproportion does not prove that law enforcement officers are making traffic stops based on the

perceived race or ethnicity of the driver. Racial profiling, whether as an agency policy or as a practice by individual officers, cannot be proved or disproved by statistics alone. That said, analysis of the data — particularly the data supplied by individual law enforcement agencies — has proven, for the past five years, to be a springboard for constructive dialogue between the agencies and the communities they serve.

Missouri was the first state in the nation to undertake such analysis on this scale, and our state continues to be a national leader in committing resources to assess traffic stops and eliminate racial disparities. State law also requires every agency to not only have a written policy regarding racial profiling, but also to provide training to officers, and to promote the use of effective, non-combative methods for carrying out their duties in a racially and culturally diverse environment.

Law enforcement agencies in Missouri have overwhelmingly complied with the law requiring reporting of traffic stop data, both by collecting the data and by working with the Attorney General's Office to ensure that our analysis is as accurate as possible. I greatly appreciate the efforts of law enforcement, which have been carried out during a time when many agencies are understaffed and underfunded. In addition, it is important to note that fears that requiring collection of traffic stop information would result in “depolicing” — a willful refusal of law enforcement to carry out its duties — have proven to be unfounded, as the number of stops has remained largely stable.

I am concerned that the number of agencies that did not comply with the law by meeting the reporting deadlines increased from 56 in 2003 to 70 in 2004. A list of these agencies has been turned over to the Governor for imposition of the statutory sanctions. In 2004, the Missouri Department of Public Safety withheld more than $7,200 from 16 non-complying agencies that received state funding.

Section II of this report, titled Statewide Findings, provides an analysis of the 2004 data, and compares that information to prior years. This analysis is done statewide and is not a reflection on any individual jurisdiction. In addition, as with any statistical analysis, there are limitations in the data.

For example, I remind readers of this report that the residential demographics for both the state and individual jurisdictions are taken from the 2000 census. The accuracy of this census in reflecting the true demographics of Missouri will lessen with each passing year. In particular, many areas of Missouri (and the United States) have experienced a marked rise in their Hispanic population. For the state as a whole, an examination of the 2004 population estimates indicate that the 2000 census figures remain a reliable basis for estimating the rate at which drivers of different race and ethnic groups are stopped by the police. However, the 2000 figures may be less accurate for particular localities.

Almost every jurisdiction will have factors that may necessitate increased law enforcement patrols in certain areas or impact the demographics of drivers using its streets and thoroughfares. Agencies are given an opportunity in this report to provide a synopsis of that information.

In conclusion, I must reiterate what I have said in my analysis of each of these reports: law-abiding drivers have the right to travel throughout Missouri without the fear that they will be stopped based solely on their race or ethnicity. I join with law enforcement officers from all parts of our state and with Missourians of all races in this commitment.

[back to top]

FOOTNOTES

Footnote 1: The figures for whites, blacks, Asians, and American Indians in the table represent the number of non-Hispanic persons 16 and older who designated that race alone in the 2000 census. Hispanics may be of any race. About 1 percent of the population designated two or more races. These persons are included in the “other” category along with persons of unknown race.

Footnote 2: Investigative stops are included in the 2004 report for the first time as a separate category for the “reason” for a stop. However, since the majority of agencies reported no such stops for the four-month period during which these data were collected, they are not included in the statewide figures, but investigative stops are included in the tables for each jurisdiction. We anticipate that with a full year of collecting this information in 2005, it will be included in the statewide figures for that year.

Footnote 3: Geolytics Inc. provided estimated 2004 populations for whites, African-Americans and Hispanics. Estimated totals for other

races were unavailable. No substantively meaningful differences in the statewide results were found when the estimated population figures were substituted for the 2000 census figures. Therefore, to maintain continuity with previous reports, the census-year population counts are used for the 2004 report. In future years, however, estimated population totals may be substituted.

Footnote 4: Caution should be used when comparing 2000 to subsequent years, especially for smaller agencies, because the 2000 figures are based on only four months of traffic data, while those for 2001-2004 are based on the full calendar year.

ACCURACY VERIFICATION

You can view all of the agency reports in two PDF files:
Part 1: Adair County-Lawson. Part 2: Leadington-Wright City.

Accuracy verification statementfor agency reports

The Attorney General's Office made extensive efforts to verify and correct all forms where numbers appeared incomplete or inaccurate. Following the March 1 deadline, calls were made to a number of agencies regarding incomplete or inaccurate data. To the extent that corrections could be determined, they were incorporated into the report.

In addition, all agencies were given the opportunity to review their final reports before publication and to make comments. At that point, corrections again were made for agencies and their comments have been included on individual city data sheets under the heading "Agency response."

RACIAL PROFILING DATA/2004

Agency: Adair County Sheriff's Dept.

Population: 20,756
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	324	284	14	26	0	0	0
Searches	96	92	0	4	0	0	0
Arrests	63	62	0	1	0	0	0
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	95.14	1.22	1.13	1.57	0.22	0.72
Disparity index	N/A	0.92	3.54	7.09	0.00	0.00	0.00
Search rate	29.63	32.39	0.00	15.38	#Error	#Error	#Error
Contraband hit rate	14.58	14.13	#Error	25.00	#Error	#Error	#Error
Arrest rate	19.44	21.83	0.00	3.85	#Error	#Error	#Error

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.
Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.
Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

I agree with the Attorney General collecting statistics for racial profiling, but I don't believe they present a viable source of information due to the arrest rate for each category. An example being: one black man stopped and arrested makes the statistic show 100 percent. The bottom line is what everyone looks at.

Agency response

Our current population is 7,653. We have four major shopping centers and six strip malls with a total of 165 retail stores and nine banks. We have two interstate highways that access our city with approximately 170,000 vehicles per day per highway. Our daytime population is approximately 50,000 and our city is located next to the St. Louis County courts, jail, and government center. In addition, our neighboring communities to our north and east have major shopping centers which contain approximately 130 additional retail stores on our city borders.

Agency response

The Callaway Nuclear Plant and Dollar General Distribution Center employ numerous non-county residents and at certain times during the year the number from the Callaway Nuclear Plant is almost tripled because of plant shutdown/maintenance. Within Callaway County, there is Williams Woods University and Westminster College, which brings in numerous non-county residents. In Callaway County, there is Interstate 70, US Highway 54 and US Highway 63. Each of these major roads is very busy during the year with non-county residents, but during the summer when people are going to the Lake of the Ozarks these roads are packed with non-county residents.

Agency response

Camden County is a tourist area with a large influx of persons during the summer months. There are several large resorts and several businesses in the area that employ unskilled labor from labor management companies. Numerous residents of adjoining counties also commute to this county for employment and recreation. Of the total traffic stops, 68.75 percent were non residents. Of the 1759 traffic stops of whites, 68.75 percent were non-resident. Of the 26 traffic stops of blacks, 73 percent were non-resident. Of the 20 traffic stops of Hispanics, 75 percent were non-resident. Of the traffic stops of Asian and American Indian, 100 percent were non-resident. Of the traffic stops of other, 50 percent were non-resident.

Agency response

It should be noted that we have Interstate highway I-170 that splits our city in half. There are approximately 108,000 vehicles that travel this section of highway both north and southbound, in a 24-hour period. These statistics are from a study conducted by MoDot in 2003. We also have state highway 180 (St. Charles Rock Road) which is on the northern boundary of our city. I have no statistics on the number of vehicles that travel this highway, however, I am sure that it is a significant number. I believe that with these two highways that run through or border our city, it has a bearing and is a factor in our overall demographics.

RACIAL PROFILING DATA/2004

Agency: Charleston Police Dept.

Agency response

Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County Justice Center, which houses over 1,200 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and 1 million square feet of retail space. It is estimated that over 80,000 people daily visit Clayton to work, shop or do business. Most of those visiting Clayton reside in the St. Louis metropolitan area. Also, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county, requiring a significant amount of traffic enforcement: I-170, Forest Park Parkway, Hanley Road, Clayton Road, Brentwood Boulevard and Forsyth Boulevard. Therefore, it is felt that, for the purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis metropolitan area. At the very least, the racial breakdown should be in line with that of St. Louis County as a whole, rather than the resident population of Clayton.

Agency response

Clinton is located on the main route between the Kansas City metropolitan area and Springfield. As a consequence, a large number of non-Clinton residents pass through Clinton. In fact, 63 percent of all traffic stops made by the Clinton Police Department involve non-resident drivers. In addition, 35 percent of all traffic stops made by the Clinton Police Department take place on state highways. Given the large number of non-resident drivers stopped on state highways for traffic violations, any comparisons utilizing the population of Clinton are inherently flawed.

Agency response

Crestwood has Westfield Shopping Town, Crestwood Plaza and seven other shopping areas that include some “big box” retailers. We also have part of I-44 and Watson Road (Highway 366) which is a major thoroughfare through the St. Louis area and is lined with businesses in Crestwood. A more accurate reflection of the demographics of our driving population would be the demographics for the metropolitan St. Louis area and not just the population for the City of Crestwood. Summons and warnings were written to drivers from 91 different zip codes in the St. Louis/St. Louis County area and eastern Missouri.

Agency response

Since the 2000 census, we have a big increase in our population inside the city limits as well as the rural area around our area. We are 11 miles north of Ft. Leonard Wood and we are a high traffic corridor to the Lake of the Ozarks and a short cut to Jefferson City from I-44. Especially in regard to the Hispanic race, we have more of a chance to come into contact with this race in traffic stops.

Agency response

Festus has a large interstate highway (I-55) that runs through the middle of the city along with a very busy state highway (Highway 61-67). These highways bring several different people from outside the area to our city. Our city also has several large retail establishments that people from all over come to patronize. There are several restaurants, gas stations and hotels near our interstate exits that have the ability to cater to a large, diverse driving population.

Agency response

I feel that the present method used to determine profiling is not truly reflective because it is based solely on the population of the jurisdiction served and does not take into consideration other major factors. The City of Florissant is not a self-contained city and, in addition to those citizens living in the city, large populations of African-American citizens residing in other areas commonly traverse our roads and make visits each day to our grocery stores, department stores, shopping centers, medical facilities, banking institutions, schools, churches, and public facilities. Many of the adjacent communities do not offer such amenities, such as, the City of Berkeley has no banks, grocery stores or department stores, or even the City of Hazelwood which also has no grocery stores. Many of our neighboring communities have far higher representation of African-Americans in some cases in excess of 60-70 percent. Additionally, the high schools and middle schools in our city reflect an African-American population of approximately 60 percent. It also must be taken into account the location of the traffic stops, since the largest amounts of transient traffic traverse our city on major thoroughfares; therefore, representatives of African-Americans are obviously much higher on main roadways compared to that of our city streets. In 2004, the majority of traffic stops, some 71.3 percent occurred on major thoroughfares, which only 28.6 percent occurred on city streets more commonly used by our residents, accounting for the over-representation of African-Americans in our traffic stop data.

Agency response

The City of Gladstone has three state highways and one interstate highway that run through the area. There also is a major home improvement center in the southwest corner of the city. The center draws retail business from throughout the area including residents from Kansas. This center also is located close to three of the four highways that run through Gladstone. It also should be noted that Gladstone is entirely landlocked by Kansas City, Mo., with major thoroughfares that allow through travel by Kansas City residents. A review of the data submitted shows that 16 percent of the blacks, 12 percent of the Hispanics and 12 percent of the Asians that my officers came into contact with occurred during stops on the highways that run through our city. When looking at the resident status of the drivers stopped, we noted that only 19 percent of the black drivers, 27 percent of the Hispanic drivers, and 6 percent of the Asian drivers were Gladstone residents. This would indicate that the majority of the drivers in each instance lived somewhere other than Gladstone. If this information was being utilized in the calculation of the disparity index, which measures against the community's population figures, then the disparity index should drop proportionately and reflect that there is not a disparity in Gladstone.

Agency response

The City of Glendale is located in St. Louis County. Our neighboring cities of Kirkwood, Rock Hill and Webster Groves, all have more diverse populations. There are four major shopping centers in our area. State Route 100 averages about 30,000 vehicles a day. Lockwood Boulevard (10,560 vehicles/day) and Berry Road (9,080 vehicles/day) are main feeds to Interstate 44. Due to these facts, the reflection of our traffic and traffic stops is not a true reflection of our population.

Agency response

Henry County is located on a major route between Kansas City and Springfield and encompasses the major portion of Truman Lake. Our area has a great increase in motor vehicle traffic from non-residents and therefore any comparisons utilizing the population data for Henry County is significantly flawed.

Agency response

The Independence Police Department, a nationally accredited agency, does not tolerate racial profiling. Officers receive annual training on cultural challenges and issues. Although Independence has a minority population of 11.27 percent, it shares its borders with Kansas City, Missouri, with a minority population of 40.5 percent. I-70 is a major roadway to shopping and economic opportunities between the two cities. Missouri highway counts show a daily count of 15,377 vehicles that enter Independence from Kansas City that do not continue east out of the city. These opportunities for employment and services create a high minority population than census indicates.

Agency response

Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 1.8 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. A software transition from scanned forms to a fully-automated data collection system resulted in arrests being counted only as a result of search. By design, the form on which the AG office submitted the summary report did not include the new category Stop Outcome “Other”, which accounted for 708 stops. The Total Stops figure, however, includes stops associated with this new category. The figures for Stop Outcome “Other” and “Investigative Stops” cover only the period from 8/28/04 – 12/31/04 per the 2004 change to Missouri’s racial profiling law. Lastly, KCPD views traffic stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies.

RACIAL PROFILING DATA/2004

Agency: Kearney Police Dept.

Population: 3,804
age 16 and over

Agency response

US 412 brings a lot of traffic going to Branson and is four-lane now just outside the city limits. US 412 connects the east to the west and Kennett is in the middle. In 2002, the counts on US 412 and State Highway 84 were 10,046. On US 412 from Hayti to Kennett, the count was 7,824, State Highway 25-Route E (north by-pass) was 12,273, State Highway 84-Route E was 11,214, and Highway 25 from Holcomb was 7,510. We have four factories which employ from two states and several towns from several counties.

Agency response

Kirksville is home to two major universities whose enrollment data is not typically reflected in the census figures. Truman State University and Kirksville College of Osteopathic Medicine account for an additional 6,000 students/residents (in 2003, 16 percent of whom are identified as other than white, and 96 percent comes from outside Kirksville, including at least 260 international students). Kirksville is located on one of the few major north-south state highways (Highway 63) that services northern Missouri and southern Iowa. 8,700 vehicles per day travel the highway into and out of town. Kirksville is the largest city for hundreds of miles and is the cultural/economic hub for a very large area. This expands the pool of those not counted in the city's census information.

Agency response

Kirkwood has a large shopping area that is on the north side of Highway 44 at Lindbergh Road. The shopping center is utilized by a large number of citizens who are minorities. Due to the fact that this interstate is frequented by people traveling to large urban areas such as St. Louis, Chicago and other cities, both north and northeast of Kirkwood, we interact with a substantial number of minority citizens on a regular basis. The west side of Kirkwood is located at the intersection of Highway 270 which is also utilized by a number of minority citizens as they travel to both the City of St. Louis and north St. Louis County which includes a large number of minority citizens. In addition, the Meacham Park Neighborhood area is located on the southeast portion of Kirkwood and attracts a significant number of minorities who visit the predominately minority population in that area. The area contains a number of long-term residents who regularly attract friends and relatives who no longer reside in that area.

Agency response

Interstate 70 borders the City of Lake St. Louis to the north and US 40/61 bisects the south end of the municipality, resulting in a fair amount of itinerant traffic. Consequently, many drivers stopped for traffic violations in this jurisdiction are non-residents. Because of this, calculating a disparity index based on a comparison of ethnicity of drivers stopped with the ethnicity of the local population may be somewhat misleading. For example, while the disparity index for blacks indicates over-representation when based on local population (4.25), under-representation is indicated when the comparison is calculated based on statewide population (0.75).

Local population %	N/A	92.80	3.24	1.71	1.02	0.34	0.89
Disparity index	N/A	0.91	3.42	1.50	0.82	0.12	0.64
Search rate	10.21	8.81	20.19	16.53	4.96	16.67	3.61
Contraband hit rate	11.49	12.75	8.59	4.84	0.00	0.00	33.33
Arrest rate	8.33	6.97	18.14	13.60	3.31	16.67	3.61

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Lee’s Summit is a rapidly growing community and is a destination for the greater Kansas City metropolitan area. Lee’s Summit has two major roadways, destination shopping and other regional amenities that draw people to the community. The public traveling in Lee’s Summit is likely more diverse than the resident population.

Agency response

We have US 54 highway running through our small town, which is a four-lane divided highway. Our area is also a major tourist destination (Lake of the Ozarks).

Agency response

Maryland Heights has 1,678 businesses, which employ 52,500 people. The city contains Harrah's Casino, which had 9,531,609 visitors in 2004. The 20,000-seat UMB Bank Pavilion Amphitheater had 287,615 visitors in 2004. The city has 20 hotels with 3,267 rooms. Maryland Heights has 64 liquor establishments selling alcohol by the drink. Finally, the section of I-270 in Maryland Heights has an average daily traffic count reported by MoDOT of 184,296 vehicles, second highest in the state. The demographics of the 67,268,040 vehicles on I-270, the 9,531,609 visitors to the casino, the 287,615 visitors to the amphitheater, and the 52,500 people employed in Maryland Heights are not known and impact the validity of this report.

Agency response

The Hispanic population in Monett has increased dramatically over the past few years, with the number of illegal immigrants unknown at this time. A large Tyson poultry processing plant is located in Monett and George's poultry processing plant is located approximately 12 miles south of Monett. These two large poultry processing plants draw many immigrants (legal & illegal) to the Monett area. Many immigrants drawn to the area are unfamiliar with state and local laws; as some speak very little English and may tend to violate driving rules and regulations.

Agency response

North Kansas City has a list of demographics that make it a challenge to discern meaningful data regarding racial profiling analysis. The city is only 4.4 square miles, with less than 4,000 residents, however, 6 highways travel through the city limits carrying an estimated 200,000 vehicles a day. Furthermore, the city's daily workforce/daytime population is estimated at 30,000 people at over 1,000 businesses. There is no information regarding the race/sex makeup of the daily motorists or the work force. Due to the small size of the department, we are able to compare individual officer's statistics with other officers working in a similar environment.

Agency response

Olivette has two major highways within its boundaries: I-170 is on the east and Highway 340 (Olive Boulevard) is a pipeline connecting thousands of people traveling into and through Olivette for business and pleasure. Olivette has several employers that employ hundreds of people. Over 53,000 vehicles utilize Olive Boulevard each day. Traffic enforcement, along with vehicle accident investigations and other highway incidents, make up the majority of the police department's duties. In 2002, we increased the traffic enforcement which lowered the accident rate. The Olivette Police Department is committed to making the streets within our boundaries as safe as possible for all people living, visiting, working or traveling through our city.

Agency response

The elevated or over-representation of Hispanic and black subjects in the racial profiling records is affected by an elevated rate of blacks and Hispanics traveling into and through Pettis County from outside our jurisdiction. Two major thoroughfares, US 50 and US 65 highways intersect within the county and a significant number of racial and ethnic minorities are employed by major food processing plants within and near the county's boundary.

Agency response

Over 51 percent of motorists stopped in Raymore do not reside here. Raymore has the only 24 hour/day Walmart Super Center in the region, which serves at least six communities in the South Kansas City metropolitan area. This, in turn, brings a more diverse motoring population through our jurisdiction on a daily basis.

Agency response

Ameristar Casino had approximately 10,000,000 in attendance for the year 2004. Department of Tourism estimates 1,250,000 plus visitors for 2003. Lindenwood University has 2,700 campus residents and 5,500 commuters. Major highways: I-70 - 5 miles; I-370 - 5.5 miles; Interstate I-364-1 mile. I-70, I-370 and I-364 provide major access points from the east/west. State Highway 94 provides major north/south access through the city. The casino employs many persons and has visitors from the entire St. Louis region and out state. Criminal activity in our city is to some degree attributable to persons who reside in the St. Louis area. There are several major shopping centers, including Bass Pro, Sam's Warehouse, Walmart, Lowe's, Home Depot and Target.

Agency response

The City of St. John lies directly west of two cities with a large minority population (upwards from 90 percent) and St. Louis City after them. We have the first grocery store and restaurant chain along St. Charles Rock Road (Highway 180) which is used by the minority population. The other state highway, Natural Bridge (Highway 115) is also widely used by minority populations to the east for fast food restaurants, banking and the airport. The report indicates that 61.5 percent of all stops occur on these two state highways. Past spot checks indicated that as much as 61 percent of the drivers on these two highways were minorities after 6 p.m. and before 6 a.m. St. Charles Rock Road is also the main conduit to get to Northwest Plaza, a large shopping mall just to the west of our city limits.

Agency response

The St. Louis Police Department reduced strength in 2004. In December 2003, the department had a commissioned strength of 1,506. In December 2004, the commissioned strength was 1,395. We are reporting 8,500 fewer traffic stops for 2004 than were reported for 2003. Comparably, we show 75,343 enforcement citations issued in 2004 compared to 84,011 citations issued in 2003.
For 2004, there were a total of 23,872 traffic stops by officers of this department. Of that number, 11,585 (48.5 percent) were African-American drivers, and 11,556 (48.4 percent) were white drivers.
People stopped by police for traffic violations were searched 4.6 percent of the time (1,096 of 23,872).
Searches with arrest warrants outstanding: In 678 of the 1,096 cases, the drivers had an outstanding arrest warrant that requires custodial search. There were 551 African-American and 127 white arrests made for arrest warrants after traffic stops. Searches without an outstanding arrest warrant: There were 396 instances in which a search was conducted in African-American or white traffic stops. Of that number, 212 (53 percent) were African-American and 184 (47 percent) were white. The 6 percent disparity involved 28 incidents.

Agency response

While the data compiled in this report is informative, any conclusions drawn from the data must be tempered with common sense. For example, population data used to calculate the disparity index does not include members of the minority community who reside in the city of St. Louis, and, therefore, increases the diversity of drivers on the roads within St. Louis County. Nor does the data reflect that in a majority of traffic stops, police officers do not know the race of the driver prior to initiating the traffic stop. Our department policy specifies that race-based detentions, traffic stops, arrests, searches and seizures of property are forbidden. In 2004, our department received 317,514 calls for service; officers made 15,468 full-custody arrests and 62,493 traffic stops with only four citizen complaints of racial profiling. All commissioned officers participate in annual cultural diversity and sensitivity training and specialized training that prohibits the illegal practice of racial profiling. Supervisors review traffic stop data on a quarterly basis to ensure that officers do not engage in biased-based policing.

RACIAL PROFILING DATA/2004

Agency: St. Mary Police Dept.

Population: 300
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

Agency response

The following conditions may influence minority contacts in St. Peters: Interstate Highway 70, Missouri Highways 94, 370 and 364 pass through or terminate within the City; Westfield Shopping Town Mid-Rivers Mall, a major retail development is located along Interstate 70 and Highway 370; the community is home to several regionally significant office and professional campuses; and employees of local businesses, commuter traffic and retail customers significantly increase the non-resident driving population.

Agency response

The summary indicates a disparity index of 5.85 for African-Americans and an index of 0.95 for white motorists. It is unfortunate that our disparity index is based upon the population demographics of the City of Town and Country, which has a population of approximately 11,000 people, with an African-American population of 1.98 percent. Nearly 400,000 motorists travel through our city limits each weekday with the second most voluminous interchange in the state (Interstates 64 and I-270). Our motoring public is reflective of the demographics of the state and St. Louis County, which are comprised of African-American populations of 10.25 and 19 percent respectively. The traffic stop data for Town and Country police officers indicates that 89 percent of all our stops are of non-residents while only 11 percent of the motorists stopped are residents of Town and Country. The natural implication of this statistic is that the ratio of the race of motorists stopped for violations would reflect state and county demographics, not the City of Town and Country. An analysis of traffic stops in the City of Town and Country in 2004 indicates that 11.5 percent of the motorists stopped were African-American, which is well under the county-wide demographic of 19 percent. The Town and Country Police Department is committed to the fair and impartial application of the law while attempting to maintain a safe environment for all people who travel in and through our city limits. A careful examination of the data indicates that our practice matches this policy.

Agency response

Located within the city limits are six major chain hotels and three major chain car rental agencies who employ blacks as a large percentage of their work force. Woodson Terrace is bordered to the east by the City of Berkeley whose majority population is black. Located within the city limits are two Mexican restaurants, two Mexican groceries, one Hispanic currency exchange and an insurance brokerage firm whose primary clients and work force are Hispanic. Interstate I-70 and State Highway 115 travel east and west through the city and State Highway EE travels north and south with these major routes connecting Woodson Terrace to the surrounding and outlying area. The northern city limits adjoin Lambert St. Louis International Airport which attracts a diverse segment of the population, to include black and Hispanic, with access gained via Interstate I-70 and State Highway 115.

AGENCY	White	Black	Hispanic	Asian	Am Indian	Other

Notes: Proportion of stops by racial category/proportion of statewide population of that racial category. A value of 1 indicates local stops within a racial category equivalent to that racial groups proportion in the state population. A value less than 1.0 indicates a lower proportion of stops of that racial group lower than its proportion in the state population. A value greater than 1.0 indicates a higher proportion of that racial group than its proportion of the statewide population.

Appendix B: Disparity indexes for 2000-2004 are compared

2003	1.01	0.00	0.00	0.00	0.00	0.00
2004	0.97	0.00	0.00	0.00	15.18	0.00

Agency: Wright City Police Dept.

Year	White	Black	Hispanic	Asian	Am. Indian	Other
2000	1.02	1.07	0.75	2.72	0.00	0.30
2001	1.01	0.99	1.05	0.00	0.00	0.50
2002	1.02	1.06	0.75	5.50	0.00	0.46
2003	0.96	1.61	1.03	2.50	0.00	0.42
2004	0.95	2.12	0.76	4.32	0.21	0.00

Notes: All disparity scores are calculated with the poulation 16 and over. This is consistent with the population figures in the agency reports 2001-2004. The agency reports for 2000 used the 18 and over population, and thus are not consistent with the 2000 scores reported in this appendix.

RACIAL PROFILING DATA/2004

Agency: Adair County Sheriff's Dept.

Population: 20,756
age 16 and over

Agency response

I agree with the Attorney General collecting statistics for racial profiling, but I don't believe they present a viable source of information due to the arrest rate for each category. An example being: one black man stopped and arrested makes the statistic show 100 percent. The bottom line is what everyone looks at.

Agency response

Our current population is 7,653. We have four major shopping centers and six strip malls with a total of 165 retail stores and nine banks. We have two interstate highways that access our city with approximately 170,000 vehicles per day per highway. Our daytime population is approximately 50,000 and our city is located next to the St. Louis County courts, jail, and government center. In addition, our neighboring communities to our north and east have major shopping centers which contain approximately 130 additional retail stores on our city borders.

Agency response

The Callaway Nuclear Plant and Dollar General Distribution Center employ numerous non-county residents and at certain times during the year the number from the Callaway Nuclear Plant is almost tripled because of plant shutdown/maintenance. Within Callaway County, there is Williams Woods University and Westminster College, which bring in numerous non-county residents. In Callaway County, there is Interstate 70, US Highway 54 and US Highway 63. Each of these major roads is very busy during the year with non-county residents, but during the summer when people are going to the Lake of the Ozarks these roads are packed with non-county residents.

RACIAL PROFILING DATA/2004

Agency: Calverton Park Police Dept.

Population: 985
age 16 and over

Agency response

Camden County is a tourist area with a large influx of persons during the summer months. There are several large resorts and several businesses in the area that employ unskilled labor from labor management companies. Numerous residents of adjoining counties also commute to this county for employment and recreation. Of the total traffic stops, 68.75 percent were non residents. Of the 1759 traffic stops of whites, 68.75 percent were non-resident. Of the 26 traffic stops of blacks, 73 percent were non-resident. Of the 20 traffic stops of Hispanics, 75 percent were non-resident. Of the traffic stops of Asian and American Indian, 100 percent were non-resident. Of the traffic stops of other, 50 percent were non-resident.

Agency response

It should be noted that we have Interstate highway I-170 that splits our city in half. There are approximately 108,000 vehicles that travel this section of highway both north and southbound, in a 24-hour period. These statistics are from a study conducted by MoDot in 2003. We also have state highway 180 (St. Charles Rock Road) which is on the northern boundary of our city. I have no statistics on the number of vehicles that travel this highway, however, I am sure that it is a significant number. I believe that with these two highways that run through or border our city, it has a bearing and is a factor in our overall demographics.

Agency response

Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County Justice Center, which houses over 1,200 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and 1 million square feet of retail space. It is estimated that over 80,000 people daily visit Clayton to work, shop or do business. Most of those visiting Clayton reside in the St. Louis metropolitan area. Also, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county, requiring a significant amount of traffic enforcement: I-170, Forest Park Parkway, Hanley Road, Clayton Road, Brentwood Boulevard and Forsyth Boulevard. Therefore, it is felt that, for the purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis metropolitan area. At the very least, the racial breakdown should be in line with that of St. Louis County as a whole, rather than the resident population of Clayton.

Agency response

Clinton is located on the main route between the Kansas City metropolitan area and Springfield. As a consequence, a large number of non-Clinton residents pass through Clinton. In fact, 63 percent of all traffic stops made by the Clinton Police Department involve non-resident drivers. In addition, 35 percent of all traffic stops made by the Clinton Police Department take place on state highways. Given the large number of non-resident drivers stopped on state highways for traffic violations, any comparisons utilizing the population of Clinton are inherently flawed.

RACIAL PROFILING DATA/2004

Agency: Columbia Police Dept.

Population: 69,535
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	18564	13961	3904	212	333	9	145
Searches	2272	1311	890	48	14	1	8
Arrests	355	219	126	5	5	0	0
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	82.73	9.32	1.88	4.26	0.37	1.45
Disparity index	N/A	0.91	2.26	0.61	0.42	0.13	0.54
Search rate	12.24	9.39	22.80	22.64	4.20	11.11	5.52
Contraband hit rate	16.07	16.70	15.17	14.58	28.57	0.00	0.00
Arrest rate	1.91	1.57	3.23	2.36	1.50	0.00	0.00

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.
Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.
Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Crestwood has Westfield Shopping Town, Crestwood Plaza and seven other shopping areas that include some “big box” retailers. We also have part of I-44 and Watson Road (Highway 366) which is a major thoroughfare through the St. Louis area and is lined with businesses in Crestwood. A more accurate reflection of the demographics of our driving population would be the demographics for the metropolitan St. Louis area and not just the population for the City of Crestwood. Summons and warnings were written to drivers from 91 different zip codes in the St. Louis/St. Louis County area and eastern Missouri.

Agency response

Since the 2000 census, we have had a big increase in our population inside the city limits as well as the rural area around our area. We are 11 miles north of Ft. Leonard Wood and we are a high traffic corridor to the Lake of the Ozarks and a short cut to Jefferson City from I-44. Especially in regard to the Hispanic race, we have more of a chance to come into contact with this race in traffic stops.

Agency response

Festus has a large interstate highway (I-55) that runs through the middle of the city along with a very busy state highway (Highway 61-67). These highways bring several different people from outside the area to our city. Our city also has several large retail establishments that people from all over come to patronize. There are several restaurants, gas stations and hotels near our interstate exits that have the ability to cater to a large, diverse driving population.

Agency response

I feel that the present method used to determine profiling is not truly reflective because it is based solely on the population of the jurisdiction served and does not take into consideration other major factors. The City of Florissant is not a self-contained city and, in addition to those citizens living in the city, large populations of African-American citizens residing in other areas commonly traverse our roads and make visits each day to our grocery stores, department stores, shopping centers, medical facilities, banking institutions, schools, churches, and public facilities. Many of the adjacent communities do not offer such amenities, such as, the City of Berkeley has no banks, grocery stores or department stores, or even the City of Hazelwood which also has no grocery stores. Many of our neighboring communities have far higher representation of African-Americans in some cases in excess of 60-70 percent. Additionally, the high schools and middle schools in our city reflect an African-American population of approximately 60 percent. It also must be taken into account the location of the traffic stops, since the largest amounts of transient traffic traverse our city on major thoroughfares; therefore, representatives of African-Americans are obviously much higher on main roadways compared to that of our city streets. In 2004, the majority of traffic stops, some 71.3 percent occurred on major thoroughfares, which only 28.6 percent occurred on city streets more commonly used by our residents, accounting for the over-representation of African-Americans in our traffic stop data.

Agency response

The City of Gladstone has three state highways and one interstate highway that run through the area. There also is a major home improvement center in the southwest corner of the city. The center draws retail business from throughout the area including residents from Kansas. This center also is located close to three of the four highways that run through Gladstone. It also should be noted that Gladstone is entirely landlocked by Kansas City, Mo., with major thoroughfares that allow through travel by Kansas City residents. A review of the data submitted shows that 16 percent of the blacks, 12 percent of the Hispanics and 12 percent of the Asians that my officers came into contact with occurred during stops on the highways that run through our city. When looking at the resident status of the drivers stopped, we noted that only 19 percent of the black drivers, 27 percent of the Hispanic drivers, and 6 percent of the Asian drivers were Gladstone residents. This would indicate that the majority of the drivers in each instance lived somewhere other than Gladstone. If this information was being utilized in the calculation of the disparity index, which measures against the community's population figures, then the disparity index should drop proportionately and reflect that there is not a disparity in Gladstone.

RACIAL PROFILING DATA/2004

Agency: Glasgow Police Dept.

Population: 971
age 16 and over

Agency response

The City of Glendale is located in St. Louis County. Our neighboring cities of Kirkwood, Rock Hill and Webster Groves, all have more diverse populations. There are four major shopping centers in our area. State Route 100 averages about 30,000 vehicles a day. Lockwood Boulevard (10,560 vehicles/day) and Berry Road (9,080 vehicles/day) are main feeds to Interstate 44. Due to these facts, the reflection of our traffic and traffic stops is not a true reflection of our population.

Agency response

Henry County is located on a major route between Kansas City and Springfield and encompasses the major portion of Truman Lake. Our area has a great increase in motor vehicle traffic from non-residents and therefore any comparisons utilizing the population data for Henry County is significantly flawed.

Agency response

The Independence Police Department, a nationally accredited agency, does not tolerate racial profiling. Officers receive annual training on cultural challenges and issues. Although Independence has a minority population of 11.27 percent, it shares its borders with Kansas City, Missouri, with a minority population of 40.5 percent. I-70 is a major roadway to shopping and economic opportunities between the two cities. Missouri highway counts show a daily count of 15,377 vehicles that enter Independence from Kansas City that do not continue east out of the city. These opportunities for employment and services create a high minority population than the census indicates.

Agency response

Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 1.8 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. A software transition from scanned forms to a fully-automated data collection system resulted in arrests being counted only as a result of search. By design, the form on which the AG office submitted the summary report did not include the new category Stop Outcome “Other”, which accounted for 708 stops. The Total Stops figure, however, includes stops associated with this new category. The figures for Stop Outcome “Other” and “Investigative Stops” cover only the period from 8/28/04 – 12/31/04 per the 2004 change to Missouri’s racial profiling law. Lastly, KCPD views traffic stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies.

Agency response

US 412 brings a lot of traffic going to Branson and is four-lane now just outside the city limits. US 412 connects the east to the west and Kennett is in the middle. In 2002, the counts on US 412 and State Highway 84 were 10,046. On US 412 from Hayti to Kennett, the count was 7,824, State Highway 25-Route E (north by-pass) was 12,273, State Highway 84-Route E was 11,214, and Highway 25 from Holcomb was 7,510. We have four factories which employ from two states and several towns from several counties.

Agency response

Kirksville is home to two major universities whose enrollment data is not typically reflected in the census figures. Truman State University and Kirksville College of Osteopathic Medicine account for an additional 6,000 students/residents (in 2003, 16 percent of whom are identified as other than white, and 96 percent comes from outside Kirksville, including at least 260 international students). Kirksville is located on one of the few major north-south state highways (Highway 63) that services northern Missouri and southern Iowa. 8,700 vehicles per day travel the highway into and out of town. Kirksville is the largest city for hundreds of miles and is the cultural/economic hub for a very large area. This expands the pool of those not counted in the city's census information.

Agency response

Kirkwood has a large shopping area that is on the north side of Highway 44 at Lindbergh Road. The shopping center is utilized by a large number of citizens who are minorities. Due to the fact that this interstate is frequented by people traveling to large urban areas such as St. Louis, Chicago and other cities, both north and northeast of Kirkwood, we interact with a substantial number of minority citizens on a regular basis. The west side of Kirkwood is located at the intersection of Highway 270, which is also utilized by a number of minority citizens as they travel to both the City of St. Louis and north St. Louis County which includes a large number of minority citizens. In addition, the Meacham Park Neighborhood area is located on the southeast portion of Kirkwood and attracts a significant number of minorities who visit the predominately minority population in that area. The area contains a number of long-term residents who regularly attract friends and relatives who no longer reside in that area.

Agency response

Interstate 70 borders the City of Lake St. Louis to the north and US 40/61 bisects the south end of the municipality, resulting in a fair amount of itinerant traffic. Consequently, many drivers stopped for traffic violations in this jurisdiction are non-residents. Because of this, calculating a disparity index based on a comparison of ethnicity of drivers stopped with the ethnicity of the local population may be somewhat misleading. For example, while the disparity index for blacks indicates over-representation when based on local population (4.25), under-representation is indicated when the comparison is calculated based on statewide population (0.75).

Agency response

Lee’s Summit is a rapidly growing community and is a destination for the greater Kansas City metropolitan area. Lee’s Summit has two major roadways, destination shopping and other regional amenities that draw people to the community. The public traveling in Lee’s Summit is likely more diverse than the resident population.

RACIAL PROFILING DATA/2004

Agency: Leeton Police Dept.

Population: 460
age 16 and over

Agency response

We have US 54 highway running through our small town, which is a four-lane divided highway. Our area is also a major tourist destination (Lake of the Ozarks).

Agency response

In Matthews, Interstate 55 runs through our city limits and we have three major truck stops. We also have three state highways; Highway 80, Highway H and Highway 61.

Agency response

The Hispanic population in Monett has increased dramatically over the past few years, with the number of illegal immigrants unknown at this time. A large Tyson poultry processing plant is located in Monett and George's poultry processing plant is located approximately 12 miles south of Monett. These two large poultry processing plants draw many immigrants (legal & illegal) to the Monett area. Many immigrants drawn to the area are unfamiliar with state and local laws; as some speak very little English and may tend to violate driving rules and regulations.

Agency response

North Kansas City has a list of demographics that make it a challenge to discern meaningful data regarding racial profiling analysis. The city is only 4.4 square miles, with less than 4,000 residents, however, 6 highways travel through the city limits carrying an estimated 200,000 vehicles a day. Furthermore, the city's daily workforce/daytime population is estimated at 30,000 people at over 1,000 businesses. There is no information regarding the race/sex makeup of the daily motorists or the work force. Due to the small size of the department, we are able to compare individual officer's statistics with other officers working in a similar environment.

RACIAL PROFILING DATA/2004

Agency: NW MO State University Police Dept.

Population:
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	2464	2247	146	14	34	0	23
Searches	122	112	8	1	0	0	1
Arrests	114	105	7	1	0	0	1
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A						
Disparity index	N/A						
Search rate	4.95	4.98	5.48	7.14	0.00	#Error	4.35
Contraband hit rate	26.23	24.11	50.00	100.00	#Error	#Error	0.00
Arrest rate	4.63	4.67	4.79	7.14	0.00	#Error	4.35

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Olivette has two major highways within its boundaries: I-170 is on the east and Highway 340 (Olive Boulevard) is a pipeline connecting thousands of people traveling into and through Olivette for business and pleasure. Olivette has several employers that employ hundreds of people. Over 53,000 vehicles utilize Olive Boulevard each day. Traffic enforcement, along with vehicle accident investigations and other highway incidents, make up the majority of the police department's duties. In 2002, we increased the traffic enforcement which lowered the accident rate. The Olivette Police Department is committed to making the streets within our boundaries as safe as possible for all people living, visiting, working or traveling through our city.

Agency response

The elevated or over-representation of Hispanic and black subjects in the racial profiling records is affected by an elevated rate of blacks and Hispanics traveling into and through Pettis County from outside our jurisdiction. Two major thoroughfares, US 50 and US 65 highways intersect within the county and a significant number of racial and ethnic minorities are employed by major food processing plants within and near the county's boundary.

Agency response

Over 51 percent of motorists stopped in Raymore do not reside here. Raymore has the only 24 hour/day Walmart Super Center in the region, which serves at least six communities in the South Kansas City metropolitan area. This, in turn, brings a more diverse motoring population through our jurisdiction on a daily basis.

Agency response

Ameristar Casino had approximately 10,000,000 in attendance for the year 2004. Department of Tourism estimates 1,250,000 plus visitors for 2003. Lindenwood University has 2,700 campus residents and 5,500 commuters. Major highways: I-70 - 5 miles; I-370 - 5.5 miles; Interstate I-364-1 mile. I-70, I-370 and I-364 provide major access points from the east/west. State Highway 94 provides major north/south access through the city. The casino employs many persons and has visitors from the entire St. Louis region and out state. Criminal activity in our city is to some degree attributable to persons who reside in the St. Louis area. There are several major shopping centers, including Bass Pro, Sam's Warehouse, Walmart, Lowe's, Home Depot and Target.

Agency response

The City of St. John lies directly west of two cities with a large minority population (upwards from 90 percent) and St. Louis City after them. We have the first grocery store and restaurant chain along St. Charles Rock Road (Highway 180) which is used by the minority population. The other state highway, Natural Bridge (Highway 115), is also widely used by minority populations to the east for fast food restaurants, banking and the airport. The report indicates that 61.5 percent of all stops occur on these two state highways. Past spot checks indicated that as much as 61 percent of the drivers on these two highways were minorities after 6 p.m. and before 6 a.m. St. Charles Rock Road is also the main conduit to get to Northwest Plaza, a large shopping mall just to the west of our city limits.

Agency response

The St. Louis Police Department reduced strength in 2004. In December 2003, the department had a commissioned strength of 1,506. In December 2004, the commissioned strength was 1,395. We are reporting 8,500 fewer traffic stops for 2004 than were reported for 2003. Comparably, we show 75,343 enforcement citations issued in 2004 compared to 84,011 citations issued in 2003.
For 2004, there were a total of 23,872 traffic stops by officers of this department. Of that number, 11,585 (48.5 percent) were African-American drivers, and 11,556 (48.4 percent) were white drivers.
People stopped by police for traffic violations were searched 4.6 percent of the time (1,096 of 23,872).
Searches with arrest warrants outstanding: In 678 of the 1,096 cases, the drivers had an outstanding arrest warrant that requires custodial search. There were 551 African-American and 127 white arrests made for arrest warrants after traffic stops. Searches without an outstanding arrest warrant: There were 396 instances in which a search was conducted in African-American or white traffic stops. Of that number, 212 (53 percent) were African-American and 184 (47 percent) were white. The 6 percent disparity involved 28 incidents.

Agency response

While the data compiled in this report is informative, any conclusions drawn from the data must be tempered with common sense. For example, population data used to calculate the disparity index does not include members of the minority community that reside in the city of St. Louis, and, therefore, increases the diversity of drivers on the roads within St. Louis County. Nor does the data reflect that in a majority of traffic stops, police officers do not know the race of the driver prior to initiating the traffic stop. Our department policy specifies that race-based detentions, traffic stops, arrests, searches and seizures of property are forbidden. In 2004, our department received 317,514 calls for service; officers made 15,468 full-custody arrests and 62,493 traffic stops with only four citizen complaints of racial profiling. All commissioned officers participate in annual cultural diversity and sensitivity training and specialized training that prohibits the illegal practice of racial profiling. Supervisors review traffic stop data on a quarterly basis to ensure that officers do not engage in biased-based policing.

Agency response

The following conditions may influence minority contacts in St. Peters: Interstate Highway 70, Missouri Highways 94, 370 and 364 pass through or terminate within the City; Westfield Shopping Town Mid-Rivers Mall, a major retail development is located along Interstate 70 and Highway 370; the community is home to several regionally significant office and professional campuses; and employees of local businesses, commuter traffic and retail customers significantly increase the non-resident driving population.

Agency response

The summary indicates a disparity index of 5.85 for African-Americans and an index of 0.95 for white motorists. It is unfortunate that our disparity index is based upon the population demographics of the City of Town and Country, which has a population of approximately 11,000 people, with an African-American population of 1.98 percent. Nearly 400,000 motorists travel through our city limits each weekday with the second most voluminous interchange in the state (Interstates 64 and I-270). Our motoring public is reflective of the demographics of the state and St. Louis County, which are comprised of African-American populations of 10.25 and 19 percent respectively. The traffic stop data for Town and Country police officers indicates that 89 percent of all our stops are of non-residents while only 11 percent of the motorists stopped are residents of Town and Country. The natural implication of this statistic is that the ratio of the race of motorists stopped for violations would reflect state and county demographics, not the City of Town and Country. An analysis of traffic stops in the City of Town and Country in 2004 indicates that 11.5 percent of the motorists stopped were African-American, which is well under the county-wide demographic of 19 percent. The Town and Country Police Department is committed to the fair and impartial application of the law while attempting to maintain a safe environment for all people who travel in and through our city limits. A careful examination of the data indicates that our practice matches this policy.

Agency response

Located within the city limits are six major chain hotels and three major chain car rental agencies that employ blacks as a large percentage of their work force. Woodson Terrace is bordered to the east by the City of Berkeley whose majority population is black. Located within the city limits are two Mexican restaurants, two Mexican groceries, one Hispanic currency exchange and an insurance brokerage firm whose primary clients and work force are Hispanic. Interstate I-70 and State Highway 115 travel east and west through the city and State Highway EE travels north and south with these major routes connecting Woodson Terrace to the surrounding and outlying area. The northern city limits adjoin Lambert St. Louis International Airport which attracts a diverse segment of the population, to include black and Hispanic, with access gained via Interstate I-70 and State Highway 115.

RACIAL PROFILING DATA/2004

Agency: Worth County Sheriff's Dept.

Population: 1,898
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

Arrest rate	4.00	4.17	#Error	#Error	#Error	0.00	#Error

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.
Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.
Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.
